## About Talen

Talen owns and operates approximately 12.4 GW of power infrastructure in the United States. We produce and sell electricity, capacity, and ancillary services into wholesale power markets in the United States primarily in PJM, ERCOT and WECC, with our generation fleet principally located in the Mid-Atlantic, Texas and Montana. While the majority of our power is already generated at zero-carbon nuclear and lower-carbon gas-fired facilities, we are reducing the carbon profile of our wholly-owned coal fleet through conversions to lower-carbon fuels and announced deactivations. In addition, we are developing a hyperscale data center campus adjacent to our Susquehanna nuclear plant that will utilize the carbon-free energy that Susquehanna generates. Talen is headquartered in Houston, Texas.

Talen trades on the OTCQX® Best Market under the ticker "TLNE." OTCQX companies meet high financial standards, follow best practice corporate governance, demonstrate compliance with U.S. securities laws, and have a professional third-party sponsor introduction.
